## Tank Monitoring

- Never run out of fuel again.\*
- Never have to check the tank level again.

We now have the ability to remotely monitor the level of your propane, heating oil, or diesel tank. A device is connected to your tank and/or gauge and will send tank readings wirelessly to our office. The readings will be used to schedule a delivery.

The cost for the monitoring service is \$59.00/year. There is no installation fee for propane applications. Heating oil or diesel installation charges vary according to tank configuration.

Please call or email our office if you would like to sign up.  
[info@mcclearyoil.com](mailto:info@mcclearyoil.com)

\*Accuracy is dependent upon a properly operating tank gauge.
